

### Quick Looks Free: 20 Looks with one click

You have downloaded Magic Bullet Quick Looks Free, the first product in the Magic Bullet Looks family of products. It provides a sampling of the power of our popular Magic Bullet Quick Looks plug-in. Get access to a library of 20 presets inspired by the look of feature films like The Matrix, Saving Private Ryan, and Traffic. Set the mood of your footage for everything from a wedding to the next Sundance original.

You can explore more power and flexibility with Quick Looks and Looks.

### Quick Looks: Classic looks with one click

Magic Bullet Quick Looks offers the same amazing results you've seen with your copy of Quick Looks Limited, but includes a full library of 100+ color presets to choose from. Set the mood of any timeline with a single click.

### Looks: Designer control with Pro tools

Magic Bullet Looks gives you the same 100+ color presets that you find in Quick Looks. Now add the power to make each of these gorgeous presets your own. Looks includes 40 distinct tools that tweak the color settings until they're just right, or allow you to create your own 'looks' from scratch. You also get the stand-alone Looks Builder for pre-visualizing your looks on set or on the go.
